

VITEK[®] PICKME[™] FOR VITEK[®] MS

**No,
this is not a pen!**

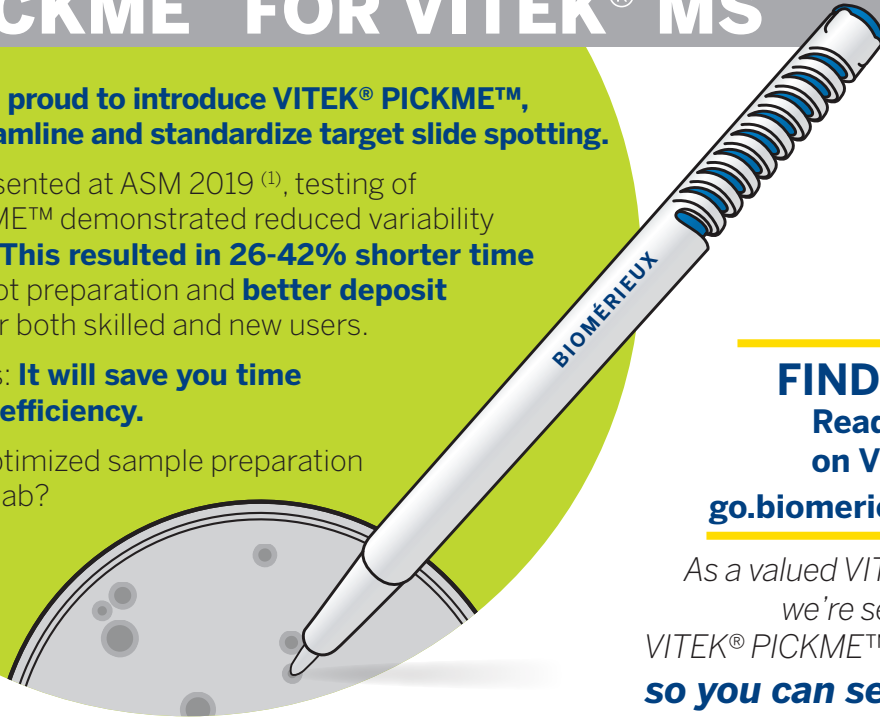

VITEK® PICKME™ FOR VITEK® MS

bioMérieux is proud to introduce VITEK® PICKME™, a tool to streamline and standardize target slide spotting.

In a study presented at ASM 2019 ⁽¹⁾, testing of VITEK® PICKME™ demonstrated reduced variability among users. **This resulted in 26-42% shorter time** for sample spot preparation and **better deposit uniformity** for both skilled and new users.

In other words: **It will save you time and improve efficiency.**

What could optimized sample preparation mean to your lab?
